MEET OUR CLINICAL PSYCHOLOGIST

Ms. Chan Chia Wei
Registered Clinical Psychologist

Our clinical psychologist is a licensed clinical psychologist who graduated from Taylor's University. She has experience working in hospitals, private centers, and universities, providing care for children and adolescents with various mental health challenges.

She also conducts psychological assessments and tailors evidence-based approaches such as CBT, DBT and Play Therapy, according to each child's condition and therapeutic goals.

WHY SHOULD I BRING MY CHILD TO A CLINICAL PSYCHOLOGIST?

A clinical psychologist can help a child if they are struggling with emotional, behavioral, or mental health challenges, such as anxiety, anger, depression, social difficulties, or learning problems. They can provide support for issues like trauma, family changes, or developmental disorders, helping children manage their emotions, build coping skills, and improve overall well-being.
